

# EXCAVATOR BRUSH CUTTER

## 60" EXTREME DUTY

### FEATURES INCLUDE

- 6" cutting capacity
- Cut away side
- Case drain required on host machine
- Grease-filled drive dramatically improves bearing life
- Fits 28,000-38,000 lb machines
- Bearing seal protection kit under deck
- 1 year warranty

This powerful brush cutter is a serious attachment for clearing land! The piston motor will tear through large brush with ease, boasting 40% more torque than geroler/gerotor type motors. The cut-away design allows better access to larger material and keeps grass standing while cutting, leaving a cleaner finish. The three AR400 blades make quick work of brush or grass. Available only in 60" cutting width.
