

PALLET FORKS

EXTRA LARGE - HEAVY DUTY

Our extra heavy duty pallet forks are rated for 6,000 lbs lift. Using an easy-to-see-through over size frame, this very heavy duty pallet fork provides added lift capacity for larger skid steers. The heavily reinforced brick guard and quick attach area make it extremely durable for heavy use. 48" x 1 3/4" tines are standard and 60" and 72" are available. These pallet forks feature a extra wide and tall frame and they are serial numbered with lifting capacities in lb. and kg. to meet job site requirement for lifting equipment.

FEATURES INCLUDE

- 3" heavily reinforced carriage bar
- 51" wide frame
- 44" Tall frame
- 6,000 lb. capacity
- Side steps standard

| PART NUMBER | MODEL | TINE SIZE | LIFT CAPACITY | WEIGHT |
|-------------|-----------------------------|--------------|---------------|---------|
