

PALLET FORKS WALK-THROUGH

Our Blue Diamond® Walk-through pallet forks allow easy access to the cab of your machine. Step through the center of the frame on a safety tread plate with this high quality fork frame. The 5,000 lbs lift capacity allows this frame to be used on the biggest skid steers and compact track loaders! The frame has a serial number plate that states the required lift capacity specifications for many jobsite requirements.

FEATURES INCLUDE

- Walk-through frame allows easy entry to machine
- Tread plate gives safe footing
- 5,000 lbs capacity
- 48" and 60" tines available
- Forks lock in position
- Excellent visibility
