

# ROTOTILLER

Till 6" or 8" deep with the heavy duty bidirectional Blue Diamond® Rototiller. A heavy front cross-tube keeps the unit floating and strengthens the leading edge. Minimum required 15 GPM. The pivoting tines allow for maximum bite in either direction.

## FEATURES INCLUDE

- Universal mount
- Tilling widths of 68" and 76"
- Works in forward and reverse
- Double edge replaceable tines
- Does not require high flow
- Tilling depth of up to 6" or 8"
- 1/2" skid plates
- Protected direct drive motor with a heavy duty bearing nose cone (not chain drive!)
- Solid round tube on leading edge for strength
- Hood design resists jamming
- 15 to 23 GPM
