

SNOW BLOWER EXTREME DUTY

FEATURES INCLUDE

- No shear pins; high-pressure bypass relief system
- No chains; direct-drive auger and fan
- 7-gauge steel blower shell
- High-strength corner bracing
- Heavy duty polyurethane idler wheels
- Bolt-on grader cutting edge

The Blue Diamond® Extreme Duty Snow Blower is engineered for years of use. A high-pressure bypass relief system eliminates the need for shear pins during sudden stops. With a choice of widths and motor packages, you can find the optimal size of snow blower to match your skid steer or compact track loader's capacity.
