

COLD PLANER

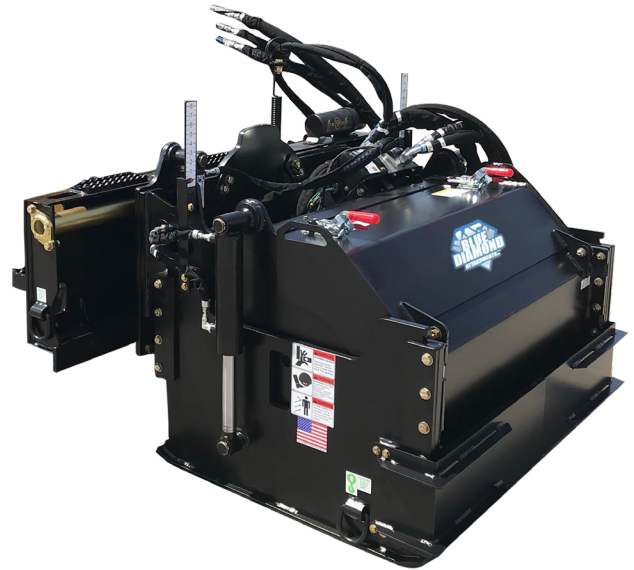

SEVERE DUTY HIGH-FLOW

The Blue Diamond® Severe Duty Cold Planer uses the most trusted components in the industry, from the Sauer piston motor, to the Fairfield planetary hub featured in the high-flow models. These high end components, combined with the highly engineered design, makes this one of the most reliable units available for a skid steer attachment.

FEATURES INCLUDE

- 18” to 48” grinding widths
- Up to 8” cutting depth
- Hydraulic adjustment controls
- Hydraulic side shift
- High-torque, planetary drive
- High drum weight equals less vibration
- Largest drum access in the industry
- 1 1/2” thick drum tube
- Water kit available
- Fine-cut drum available
- 1-year warranty
- Made in the USA

Applications Include:

- Removing asphalt surfaces prior to overlay
- Widening shoulders
- Repairing potholes
- Restoring drainage near curb lines and catch basins
- Mixing stabilizing agents into base for more durable repair

PART NUMBER	MODEL	# OF TEETH	MIN-MAX FLOW	MIN-MAX PRESSURE	WEIGHT
160810-HP	18” Severe Duty High Flow	46	30-45 GPM	3,000-5,000 PSI	2,050 lbs
160815-HP	24” Severe Duty High Flow	56	30-45 GPM	3,000-5,000 PSI	2,300 lbs
160820-HP	30” Severe Duty High Flow	66	32-45 GPM	3,000-3,500 PSI	2,550 lbs
160825	40” Severe Duty High Flow	76	30-45 GPM	3,000-3,500 PSI	2,975 lbs
160825-HP	40” Severe Duty High Flow	76	32-45 GPM	3,000-3,500 PSI	3,000 lbs
160830-HP	48” Severe Duty High Flow	106	34-45 GPM	3,000-5,000 PSI	3,200 lbs
