

# ROCK BUCKET GRAPPLE

## STANDARD, HEAVY AND SEVERE DUTY

The Blue Diamond® Standard & Heavy Duty Rock Bucket/Grapple uses 3/8" steel with the tines spaced at 3" apart. This very popular bucket can be used for sifting or raking and is available with dual grapples for holding your load. Works well as a land plane, skimming off high spots with the leading edge and smoothing the loose soil with the rear crossbar. The drop down inside keeps rocks from sliding out.

### FEATURES INCLUDE

- Laser-cut cutting edge gussets on tips of tines
- 3" spacing between tines
- 3 styles of grapples available
- Works great as a land plane and for light clearing
